

pre-painted

When it comes to pre-painted color selection, Majestic Steel is unparalleled in the industry. We can match any color specifications, meet most maximum coil or skid weight requirements and accommodate your lead times.

prepainted galvanized

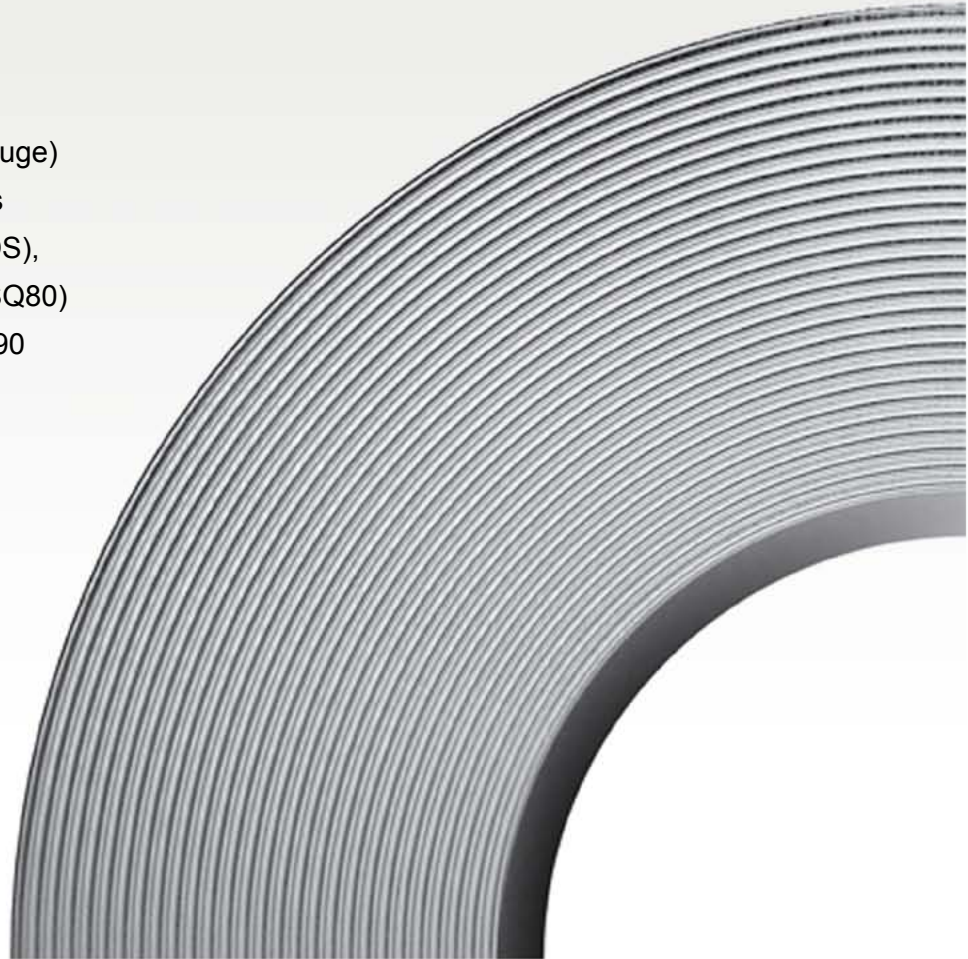

Galvanized

- Minimized spangle, non-chem treat, lightly oiled
- 0.0127 inch min (30 gauge) - 0.1591 inch min (8 gauge)
- Commercial Steel Type B (CS-B, formally known as LFQ), Forming Steel (FS), Deep Drawing Steel (DDS), Structural Grade 50 (SQ50), Structural Grade 80 (SQ80)
- Regular Spangle G30 - G90, Minimized Spangle G90

Custom coil and sheet sizes and paintable steel products readily available upon request.

Chem treat is also referred to as chemically treated, chromate treated and passivated.

Most products are ordered as tension leveled to help ensure flatness and prevent fluting and are available in UL (Underwriter Laboratory) approved coating weights.

Galvalume

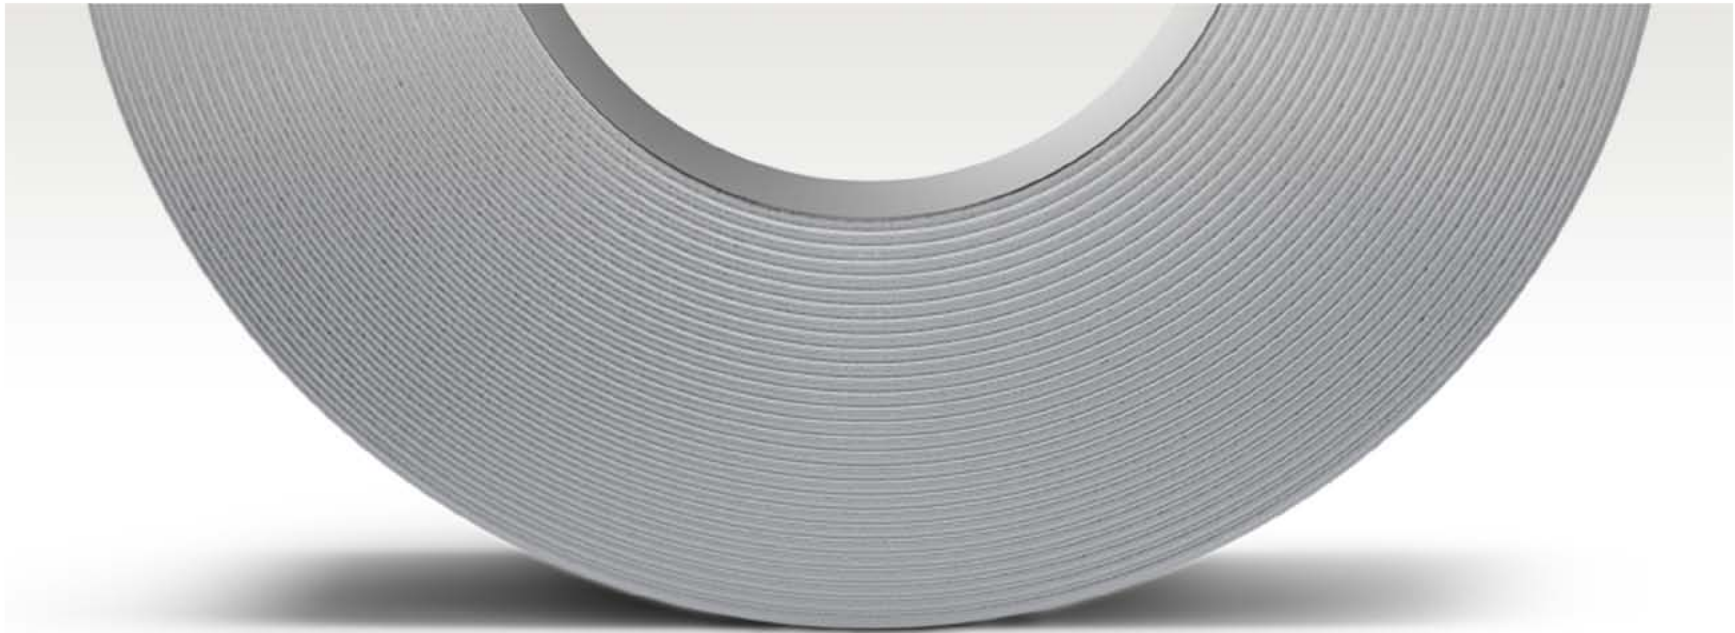

- Oiled
- 0.0187 inch min (26 gauge) -
0.0466 inch min (18 gauge)
- Commercial Steel (CS), Structural
Steel, Structural Grade 80 (SQ80)
- Coating weights AZ 50 and AZ 55

Custom coil and sheet sizes and paintable steel products readily available upon request.

Chem treat is also referred to as chemically treated, chromate treated and passivated.

Most products are ordered as tension leveled to help ensure flatness and prevent fluting and are available in UL-approved coating weights.
